

# VERIZON AR EXPERIENCE

## VERIZON AR EXPERIENCE

### Overview

### Scope

UX Research

UI Design

### Key Metrics

App launched for Coachella Valley Arts Festival

Successful 5G test with event attendees

### Objective

Design an app for Coachella valley arts festival attendees to experience augmented reality using Verizon 5G

### Ideation

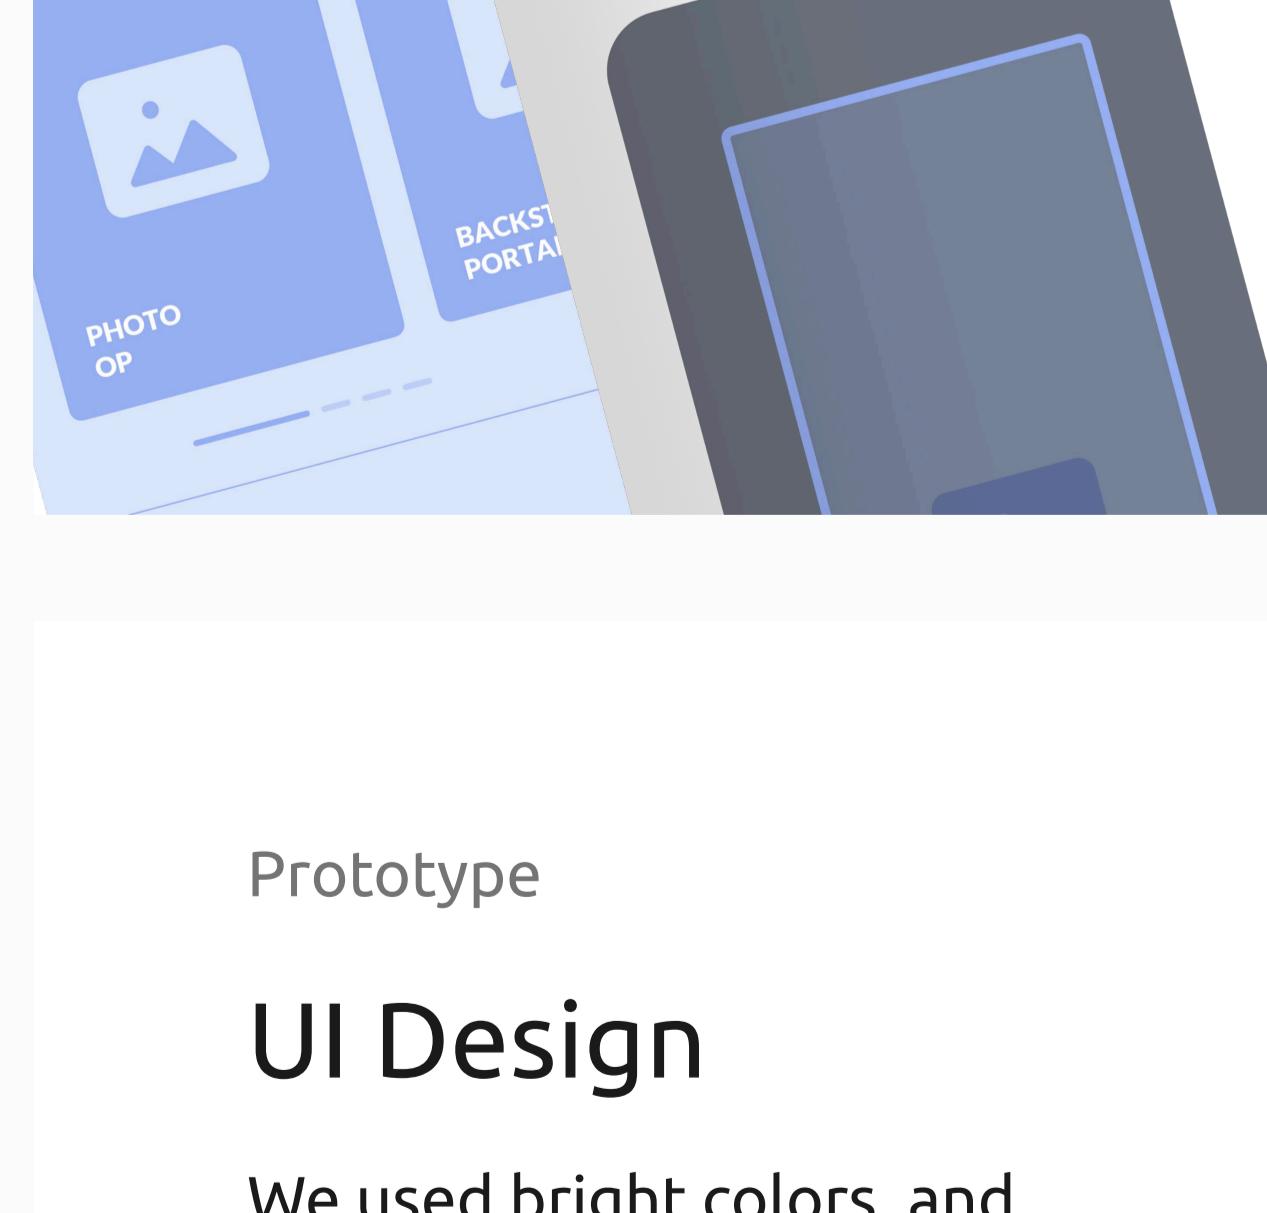

### Ideation Session

Through our ideation session we came up with 5 unique solution for the app. Our goal was to find a solution that meets all Verizon design guidelines and also capture the theme of The Chainsmokers band.

### Prototype

### Wireframe

We created 3 different wireframes to visualize 3 solutions that we picked from 5 of our initial solutions.

### Prototype

### UI Design

We used bright colors, and illustration to ensure the app felt warm, fun and cozy.
